

Incident Response Plan

JCT / Robin household — digital identity incident checklist. Keep a printed copy accessible offline (safe). Work through in order.

1. ☐ From another device, use a hardware security key to sign into Google, change the password, and revoke all active sessions immediately.
2. ☐ Call carrier to lock/freeze the SIM before anything else.
3. ☐ Call banks/brokerages/credit union using the number on the card/statement — never a number that contacted you.
4. ☐ File a report at identitytheft.gov (FTC).
5. ☐ File a police report and get the report number.
6. ☐ Document everything as you go: timestamps, amounts, reference numbers, names of who you spoke to.
